## What is child sexual abuse?

Child sexual abuse is a form of child abuse that includes sexual activity with a minor. A child cannot consent to any form of sexual activity, period. When a perpetrator engages with a child this way, they are committing a crime that can have lasting effects on the victim for years. Child sexual abuse does not need to include physical contact between a perpetrator and a child. Some forms of child sexual abuse include:

- Exhibitionism, or exposing oneself to a minor
- Fondling
- Intercourse
- Masturbation in the presence of a minor or forcing the minor to masturbate
- Obscene phone calls, text messages, or digital interaction
- Producing, owning, or sharing pornographic images or movies of children
- Sex of any kind with a minor, including vaginal, oral, or anal
- Sex trafficking
